smirthwaite

Together we
transform lives

welcome

Since 1986, Smirthwaite has developed and retained its reputation as one of the leading designers & manufacturers of special needs equipment. In that time, we have dedicated ourselves to finding and providing effective solutions that offer significant benefits to babies, children and young adults in their daily lives. Working closely with children, parents, carers and therapists, we have developed a comprehensive range of seating, standing, tables, desks, toileting, bathing, changing, showering, moving & handling, sleeping, therapy, transportation and sensory products.

Toileting & bathing

When a child can bathe themselves in the bath chair and go to the toilet themselves they receive a boost to their confidence which helps them to fit in and develop socially.

Our toileting and bath chair products, suitable for children from 12 months and upwards, can also make life easier for parents. By reducing frustration, bath time can become a fun and engaging experience for everyone.

The toileting chairs are freestanding and supportive meaning they fit well in nursery, school and home environments. If more privacy is required our potty chair comes with high sides. The chairs come in a range of colours allowing for a different colour to their normal chair.

The two variations of bath chairs are both lightweight and compact and can also fit in a wide range of baths.

Innovation in our design

Special needs equipment is often overly complex, difficult to use and expensive to maintain. At Smirthwaite, we believe in well-made, easy to use products that stand the test of time. Through close consultation with leading therapists, parents and end users, we ensure our designs offer numerous clinical benefits whilst maintaining a customer-centric and innovative approach.

Warranty & servicing

All of our products come with a two year warranty as standard. An inspection, maintenance, service and repair facility for all Smirthwaite products is available to you, for complete peace of mind. This can be scheduled at a time that is convenient for you.

Call our Customer Services team today on +44 (0)1626 835552 or e-mail info@smirthwaite.co.uk to book your service, inspection or repair.

Easy to clean

All of our products are easy to clean. For instance, our wooden chairs have anti-microbial properties that ensure surfaces are kept hygienic. This helps to reduce any risk of cross infection and is especially useful in multi-user environments such as nurseries and schools.

All our upholstery is carefully chosen due to its clever material make up that contains antibacterial agents that help against the spread of MRSA, E coli and other bacteria.

More support

Our Bath Corner Chair is designed for children who require a little extra help with sitting balance whilst bathing. This is achieved by its angled back and hand rail, both of which provide additional security.

Adjustable

Like the Bath Chair, our Bath Corner Chair provides numerous levels of adjustment. The pommel and pelvic strap can be adjusted to suit each individual child's needs.

Compact

Lightweight and easy to clean, the Bath Corner Chair has a perfectly compact design. This allows it to sit low in the bath enabling your child to fully extend their legs in complete comfort. Its size also enables it to fit a wide range of baths.

“The Bath Corner Chair gives my child extra support and helps me to bathe her.”

Christine, Mum, Reading

combi

Progressive toileting

Our Combi toileting chair is a great starter chair. Its design enables it to be used as a supportive chair whilst at the same time providing numerous features to assist your child with the everyday toileting needs.

Providing solutions

The Combi toileting chair's design also incorporates a potty for younger children. This can easily be removed to provide a commode seat for children who have progressed their toilet training.

Adjustability

Good levels of adjustability are offered with the Combi toileting chair so that a wide range of needs can be met. Seat height and depth can be adjusted to suit the needs of your child.

The Combi toileting chair comes complete with potty, plastic commode seat, upholstered seat and velcro pelvic strap. You can choose from either our fixed arm or height adjustable arm Combi toileting chair.

potty chair

Fully supportive

Our Potty Chair has been designed specifically for young children who require assistance with sitting balance and need more reassurance when toileting. Its freestanding and highly supportive design means that it fits well in nursery, school and home environments. The sides of the Potty Chair provide your child with the privacy they sometimes need whilst toileting. Holding the handrail helps to maintain seating balance.

Potty aperture

Many potties have a round aperture which can make toileting extremely difficult for children with slightly narrow hips. Our Potty Chair's aperture has been designed to ensure improved comfort and toileting performance.

seahorse plus

Designed & Developed by NRS Healthcare

The Seahorse Plus inspires confidence and makes toileting and bathing a more manageable experience for both the carer and user.

Suitable for ambulant and non-ambulant users who require postural support, as well as users with mild to severe cognitive impairment or reduced motor function.

Fully adjustable for user security and comfort the Seahorse Plus can quickly and easily be positioned for use over a toilet or bath, as well as in the shower. It can also be used with a suitable hoist. Please contact the Customer Service team for advice on compatible hoists.

Available in three sizes: small, medium and large with a range of comfortable PU liners to accommodate children as they grow, from 5 years to adult.

A range of optional accessories are available, including; liners, harnesses and anterior supports.

Please note the Seahorse Plus is only available in blue.

a range of optional accessories have been designed around the user and carer to offer additional safety, security and maximum comfort
