seating

Correct posture has a myriad of benefits for children and young people; it allows them to interact and be included in group activities, it helps with concentration and focus, aids their digestion and prevents unnecessary stress on their bodies. Excellent posture is at the heart of our seating range.

a range
dedicated to
managing
posture

indiGO

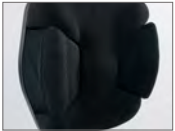

IndiGO has been designed for teenagers with mild to moderate postural needs, who want to achieve enhanced independence from their chair. Smart and stylish the IndiGO is ideal for both school and at home. Whilst delivering the necessary comfort and postural support through its discreet build in thoracics and lumbar support.

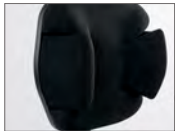

User operated brake is unique and easy to use; it puts the user in full control of the chair, delivering a feeling of independence.

Flip away armrests are height adjustable and can also flip away when they are not needed. This is particularly beneficial when self-transferring from one chair to another.

Lumbar support is adjustable and allows the therapist to change the shape of the seat back in the lumbar region to provide a more comfortable position for the user.

Thoracic supports are adjustable (with a hex key) to give the user just the amount of support that they need.

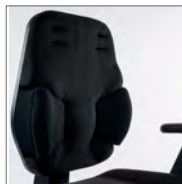

Colour options

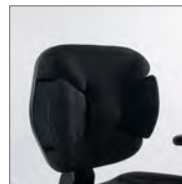

indiGO configuration

Choice of back IndiGO has two available back sizes: a low back and a high back. The low back has been designed with social integration in mind and is best suited to a child with mild needs. The high back is more appropriate for a child who may need a harness or extra physical support. The chair has been designed with both the therapist's and the child's needs in mind. All adjustments can be made easily and mostly without tools.

High back

Low back

Colour options

A customisable solution You can also choose from two colours (Black or Blue) and two sizes (Size 4 and Size 5). User operated brake can be fitted to the left or right hand side.

Juni chair

CODE 16011-16034

For prices please see the table

Juni's seat and backrest both provide unique contouring. This promotes better posture, gives higher levels of comfort and helps your child feel secure and stable in the chair. It is our vibrant and dynamic chair for children who require moderate levels of postural support when seated.

The Juni is ideal for nursery, school and home for children from 18 months old.

Our Juni chair is easily adjustable. The seat height and depth as well as armrest height can all be adjusted.

The Juni chair comes with contoured seat and backrest, built-in lumbar support, pelvic strap, height and depth adjustable seat, height adjustable armrests, as well as angle adjustable backrest as standard.

juni hi lo base

Colour options

We understand the challenges of the classroom and home environment. Height adjustment is now easy with the gas strut, allowing your child's seat to grow to 570mm in height. The slimline footprint of the base makes this the ideal solution to fit under most classroom desks.

The Juni chair and Juni Hi Lo Base are sold separately.

From £80.00

We have designed a variety of accessories that will enable your child to get the most out of the Juni chair.

Skis help to stabilise and prevent chair movements. The Mobile skis enable easy indoor moving. The Sliding footrest gives foot support and easily slides away to give clearance to facilitate standing transfer.

Height adjustable push handle can be adjusted to assist and achieve optimal push position when moving the chair.

Juni footrest can be attached to the Juni chair or it can act as an independent footrest. The Juni footrest is both height and angle adjustable making it easy to tailor to the needs of your child.

¹ Requires mobile skis to fit

Pommel encourages hip abduction.

Side support cushions provide hip and thigh support. You can choose from two thicknesses, either 25mm or 50mm.

4-point harness provides trunk support. It also helps to maintain postural alignment in the upper body.

Quick release tray is unique, light and easy to clean. The tray can be attached or released by using only one hand.

zoomi

Colour options

Zoomi is an innovative and unique seating system which has been designed to grow with your child. There is only one size of Zoomi and it covers an extensive age range, from 4 months all the way up to young adults. The unique benefit of Zoomi is that you can configure the chair to the needs of your child. We have put together two simple options.

Zoomi standard is perfect for both the classroom and home. Both the seat and the footboard can be easily set at the most appropriate height and depth for your child. As your child grows the chair can be adjusted to accommodate for this.

Standard Zoomi

- Frame
- Low backrest
- Flat laminated seat
- Laminated footboard

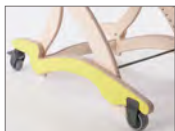

Zoomi + is a result of extensive collaboration with many therapists. It is the ideal solution for a child that needs a little more postural support.

foxdenton

Foxdenton chair

CODE 8011-8015

For codes and prices
please see table

Foxdenton is a classroom chair for children from the age of 3 years old who require minimal levels of postural support when seated.

The Foxdenton school chair has been created purposely to ensure your child feels more included within the classroom environment.

Good seating posture starts with stability of the pelvis. The Foxdenton has simple Side supports that may be adjusted to help keep your child's pelvis supported and stable. A flip-up footrest also enables your child to sit in a more comfortable position.

Offered as a complete package, the Foxdenton school chair comes with side supports, Foxdenton seat, flip-up footrest and pelvic strap as standard.

desks

Personal tilt desk

Our range of desks has been designed to fit into the school and home environment. Our desks can be used with a variety of chairs; particularly with our Heathfield and Brookfield chairs.

The Personal Tilt Desk is packed with additional features; the tilt functionality and cut-outs can transform the desk and allow your child to work on a variety of activities.

Our Study Desk has been cleverly designed to allow your child to take part in various activities. The Study Desk contains ample storage space, so books and toys can be hidden away after they have been used.

hi-lo desk - tilting top

Hi-lo deluxe tilting top

Deluxe soft close hinges

Pen stop

Desk pictured shown with optional coloured lime top. Standard colour is natural wood, unless otherwise requested on the order.

Coloured tops additional £25

Our range of desks has been designed to fit into the school environment with larger sized desk tops for dynamic learning. Each of the desks have a modern metal mechanism with a turn handle to easily change the height of the table to the desired height, ideal when there are multiple people having use of the table. Each top has a sliding bottom extension to secure pens and papers from sliding off the desk when they are being used in a tilted position. Our desks can be used with a variety of chairs and can be made to match the colour of our Juni chairs.

The Hi-Lo Deluxe Tilt Desk has a metal tilting mechanism and includes soft close hinges.

To order a cut-out table, please specify on your order

Our Activity Table is an ideal table for younger children at nursery, school and home. The steel legs can be adjusted in height to ensure good seating posture for your child and can easily be folded for storage.

Our Connect range of Rectangular and Triangular tables has been designed to encourage good posture when your child is seated. All of the tables are adjustable in height and are extremely functional. They can be arranged into modular groups (as illustrated below) using rectangular and triangular configurations.

Cut-outs are designed to provide your child with trunk support and alignment. For a full range of options, please visit www.smirthwaite.co.uk.

saiza

Saiza is a new and innovative seating concept designed to improve your posture. It helps to strengthen core and back muscles reducing the risk of back pain and poor posture. Proud to be at the cutting edge of ergonomic seating, Saiza presents a striking contemporary design borne from intelligent research into corrective posture.

Unlike conventional seating, Saiza's uniquely contoured and angled seat has been designed to encourage a forward tilt of the hips. This enables the body to sit in perfect natural balance and form a classic 'S' shaped spine, associated with good posture.

Saiza's height and angle adjustable seat also encourages movement and prevents static loading.

sensory

Sensory development is essential for children's balance, behaviour and understanding of their senses. Our range of sensory products can be used to encourage children to refine their skills and helps build confidence. Our products stimulate children's senses and encourage them to respond to different sensations.

rocking horse

Our Rocking Horse will provide hours of fun for your child. The Rocking horse has been designed for vestibular activation to quiet, stimulate or organise a child's activity level. The contemporary design of the Rocking Horse coupled with the padded seat and back ensures that this product is both attractive and comfortable. The seat depth is easily adjustable and the back can be reclined. The Rocking Horse can be purchased in a variety of colours.

The Rocking Horse comes complete with a black pelvic strap that has a dartex pad. A harness and a pommel are also available as additional accessories.

ramp & scooter

Our Ramp & Scooter set make sensory therapy fun and engaging. It can be used in Sensory sessions to increase the arousal levels of children. It has been designed to stimulate your child and make their sensory sessions enjoyable. The set comprises of two varieties of ramps; one of the ramps is angled whereas the other is slightly convex. The scooter has a flat padded surface that makes it easier for your child to lie in a prone position.

Our Ramp & Scooter set can also be used for proprioception activity, as well as refining motor co-ordination skills.

sensory scooter

Our Sensory Scooters can be used in sensory therapy sessions. The scooters can be used in a variety of ways and can help to develop bilateral motor co-ordination skills. Sensory therapy has to be engaging and capture the imagination of the child.

Lying on the Sensory Scooter they can use their arms and legs to navigate around an exciting obstacle course. You may want to consider using the Sensory Scooter to teach key skills in transitioning, eye-hand co-ordination, spatial awareness and proprioception.

Our popular selection of free-standing suspension systems are designed to be used in conjunction with our sensory swings, platforms and bolsters. They eliminate the need for permanent structural fixings, are made of tubular steel and can be purchased with bright, colourful padding and mats.

The A Frame has been designed to handle a weight capacity of 300kg, this means that you can attach two of our swings or bolsters and use them at the same time. Both the C and O Frames can support rigorous activity and can be fixed to the floor if required.

Our swings and bolsters are easy to attach to our frames and can be used as part of your child's sensory programme. All of our swings and bolsters can be assembled from a single point from the ceiling or from our frames.

Our Swing Platforms and Swing Bolsters are used for vestibular stimulation and to improve directional and spatial awareness.

Our Activity Bolster helps to stimulate muscles and to improve general body coordination and balance.

Our new Hug 'n' Hold Bolster can be used by two children at the same time.

Using our Flexi Bolster provides vestibular and proprioceptive stimulation through gentle rocking or pushing of the bolster.

Height adjustable suspension kit includes height adjuster, rotational device, 2m spliced rope, 2 x screw gate carabiners, 2 x straight gate carabiner. The idea of having a screw gate carabiner is to reduce the risk of someone undoing it or it coming undone unnecessarily. The rotational device and the top of the spliced rope are likely to be out of reach when being used; while the height adjuster on the other hand is likely to be within reach.

the rokka

The Rokka is a fishing boat, a see-saw and a den. Turned upside down, it is a table and two chairs for eating or drawing, or a trip-trap bridge for some rudimentary stair-training. Made from quality birch plywood, it withstands the hardest wear.

The Rokka helps children learn balance; in playing with it they also naturally build their physical confidence by discovering what they can do. Playing together and collaborating means they develop social skills and practise the etiquette of taking turns.

Did you know?

Many potties have a round aperture which can make toileting extremely difficult for children with slightly narrow hips. Our Potty Chair has been designed with an oval aperture to ensure improved comfort and toileting performance.

changing & showering

All of our Changing & Showering equipment is now part of our Easi-Change brand which is fully dedicated to finding solutions for children and adults that require assistance when changing & showering. Our Easi-Change range of products is economical, practical and easy to use. To find more about all Easi-Change products please visit www.smirthwaite.co.uk.

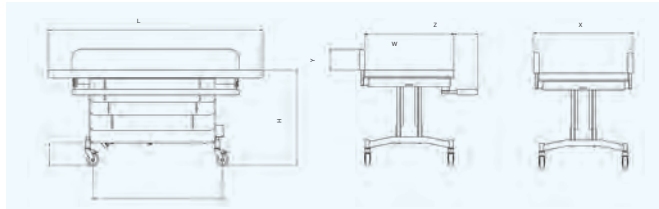

mobi changer

The Mobi Changer is a fully mobile changing table that requires no installation or fixing. Its compact and slimline design means it can be easily manoeuvred from room to room, offering an extremely cost effective option for multi-transfer or multi-user environments.

sleeping

Your child will spend roughly a third of their time sleeping.

Sleep is the time when the body does its best 'repair work' and is vital for recuperation. Your child has to sleep because it is essential for maintaining their levels of cognitive skills such as speech and memory.

lying

Sleep systems are not designed to stop your child's movements, but simply to provide different levels of support and prevent your child from getting stuck in harmful positions during the night. Fundamentally, sleep systems should enable your child to enjoy a restful night's sleep. To achieve this, we offer two options of sleep system:

Little Dots - a supportive system for babies up to 12 months old

Snooooooooze - a flexible system for children and young adults.

Our sleep systems components support your child in supine (on their back), side and semi-prone lying positions. This key feature enables us to accommodate and correctly position posture overnight, whilst maintaining a high level of comfort.

We recognise that every child is different, which is why we have developed and designed systems that:

- Maximise your child's potential
- Promote postural integrity
- Encourage better sleep patterns
- Work against postural deterioration
- Offer high levels of compliance
- Improve positioning
- Give the carer respite
- Are easily portable
- Enable adjustability
- Are easy to wash & clean.

daytime therapy

Sidney

CODE 9040
£212.00

A highly portable multi-use side lying positioning system

Therapy mat

CODE 9002 & 9003
£90.00 / £107.00

Can be used in sensory rooms and for stretching and therapy activities, two sizes available 500mm x 700mm & 1730mm x 1000mm

Our Sidney has been developed by a mother who was on holiday and wanted her son to be held safely. Children are often put on their backs on the floor; Sidney provides a perfect solution that allows your child to be positioned on their side. Designed for daytime use, it can also be used for stretching exercises and integrated into therapy programmes.

Our sleep systems can also be used for day time therapy, in conjunction with the Therapy mat, which is hook & loop receptive.

Little Dots system

CODE 9030
£1031.00

Daisy, Box W, Fleece Overlay, Segmented horseshoe, 3 sizes of Wedges, Wedge & ramp

Fleece overlay

CODE 9038
£67.00

Double sided fleece is used to overlay on the components
Machine washable

Early intervention is essential for ensuring that your child maximises their social and educational developmental potential. It is vital that your child's needs are identified as early as possible to ensure the best possible quality of life.

For young children with low body mass and control, it is important to provide cushioning that is volume adjustable. Little Dots components allow you to add and remove filling which, in turn, lets the system grow with your child. Little Dots is lightweight, very portable and offers a highly customisable solution to your child's needs.

Little Dots has been designed for new born babies and children up to the age of 12mths. A highly supportive system, its Segmented horseshoe, Box W, Daisy and Wedges, dressed with the Fleece overlay, establishes a profiled shape.

little dots components

Box W

CODE 9031
£200.00

Supports your child's leg and prevents rotation and risk of dislocation

Segmented horseshoe

CODE 9032
£314.00

Use either directly supporting the body or other components

Star head support

CODE 9020-9021

Gives head support
Points of the Star can be pointed for angled support

Our Snooooooze sleep system is designed for children and young adults. It is lightweight, highly portable and highly adjustable to cater for the growth and the needs of your child.

To ensure correct positioning both during the day and night, we stabilise the pelvis. The pelvis is the foundation of good posture, and is therefore the first area we evaluate when conducting an assessment. Using a component like the W Leg Trough, we aim to draw the legs into mid-line.

The Body roll has heralded a new stage in side lying, and can help achieve an excellent trunk and leg position for both left and right side lying. It is most effective for when the trunk has shortening sides and the legs are windswept. Alignment of the legs is achieved with a Pillow between your child's legs. The final key of achieving a good posture is to support and position the head.

terms & conditions

ZERO RATED VAT

VAT will be charged at the prevailing rate on the date of invoice but maybe zero-rated in some cases. Any increase or decrease in VAT between date of order and date of invoice will be passed on to you.

Zero-rated VAT applies for equipment designed solely for disabled people, which is being purchased for personal or domestic use for an individual who is chronically sick or has a disabling condition. This exemption applies where the goods, as described above, are being purchased by an individual or on his or her behalf by a parent, spouse or guardian, charity and certain other eligible establishments.

If you believe your order should be zero-rated, please contact Customer Services on 01626 835552 or by email and they will provide you with a VAT exemption form. You can also complete a form online. On receipt of a valid signed VAT exemption form, the company will refund the VAT element of the purchase.

Smirthwaite is responsible for ensuring that all the conditions for zero-rating are met. We may wish to contact you to verify information before goods are released and if we do not believe the VAT exemption rules have been met we will require the payment of the VAT element before the goods can be dispatched.

Definitions

Orders placed with Smirthwaite Direct form a contract with Smirthwaite Ltd (referred to as "Smirthwaite", "us" or "we"). Our Registered office is: 16 Wentworth Road, Heathfield, Newton Abbot, TQ12 6TL. Registered Number 06548687. VAT No. GB927399575. By placing any order(s), you agree to be legally bound by these terms and conditions.

1. Content Accuracy

Smirthwaite makes every effort to ensure the contents of this catalogue, including illustrations, product details and technical data are clear and accurate at the time of publishing. We do not accept any liability for any errors or omissions contained within this catalogue.

2. Availability

All items are subject to availability. We will endeavour to manufacture your requested product within 10 days. We will make every effort to keep you informed of any delays. Delivery days quoted are working days and do not include weekends and bank holidays. Smirthwaite does not dispatch any goods between 20th December and 5th January. Optional colour requests could increase lead times.

3. Prices

Prices are in sterling and shown exclusive of VAT. Smirthwaite reserves the right to amend prices at any time and without prior notification. Customers outside England, Scotland and Wales can purchase goods through our international distributors or may email us directly for a quote.

4. Ordering Errors

If you make a mistake when placing an order, please contact our Customer Services team. If your goods have not been dispatched we will try to rectify the mistake. If goods have been dispatched there will be a charge to have the goods returned and redelivered.

5. Delivery

For products purchased from UK mainland locations, no delivery charge for that order will apply. Where several items have been ordered together that have different delivery times, we will aim to deliver all the items together.

6. Delivery Company

Deliveries will be carried out by our own transport or carrier. Goods will be delivered to your door and left packed. The packaging should be opened carefully and kept in case you need to return the goods. If you do not have the packaging to return the goods, a charge will be made to have packaging sent to you. Goods must be signed for at the time of delivery. A proof of delivery can be obtained by contacting Customer Services.

7. On Receipt of your Goods

On receipt of your goods, check your items carefully. If you have any concerns see Returns below. Keep all packaging in case you need to make a return. Please read any instruction manuals carefully, as not following the instructions may invalidate your warranty and may affect your use of the product. We recommend that you keep the instruction manuals for future use and ensure all users of the equipment have access to them.

8. Notice of Damage, Non-delivery or Wrong Delivery

If goods appear damaged, incomplete or incorrect on receipt, this must be noted on the courier's documentation. You must notify our Customer Services team no later than 3 days after delivery and quote your order number. If in doubt, mark the courier's documentation unexamined. Should goods ordered not arrive on their expected delivery date, please contact our Customer Services team within 21 days from date of invoice, failing which Smirthwaite takes no responsibility for non-delivery. We reserve the right to incur a 15% handling charge for all refused deliveries or redeliveries without justification. Delivery charge refunds can only be made in accordance with your legal rights under the Distance Selling Regulations.

9. Returns

Goods must not be returned without notifying us by email: info@smirthwaite.co.uk or telephone: 01626 835552. You will be issued with a goods return number and this needs to be clearly marked on the outside of the packaging. Goods must be returned in the same condition as they were received, including the packaging. Goods must be returned within 30 days of receipt, and no goods will be accepted for return after this period. All goods MUST be returned with the original paperwork.

10. Warranty

Smirthwaite warrants the products detailed on your order to be free from defects in materials and workmanship for a period of 2 years from date of delivery.

11. Cancellations

For order cancellations, we will give you a full refund if you change your mind for any reason within 7 days after the day you received your goods. If you cancel your order once it has been delivered, you must not use the goods, ensure they do not sustain any damage and make them available to us when we call to collect them on the date we will agree with you. We will collect the goods and then refund the cost of the items ordered within 30 days of cancellation.

You must ensure the goods are maintained in a saleable condition and in their original packaging. Our Terms and Conditions do not affect your statutory rights.

We reserve the right not to accept an order: if we do not have the stock to fulfil the order; if we are unable to deliver the product to your area; if an item was incorrectly priced; if your payment was not authorised and/or if you have not complied with our Terms and Conditions of sale.

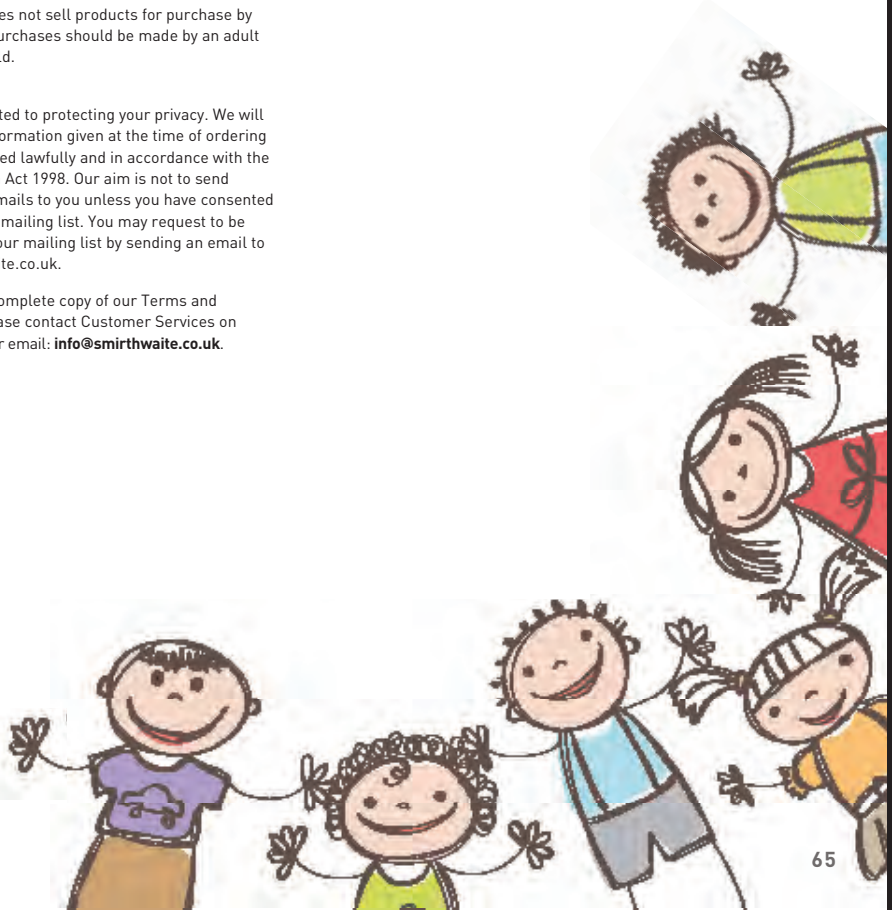

12. Children

Smirthwaite does not sell products for purchase by children. Any purchases should be made by an adult over 18 years old.

13. Privacy

We are committed to protecting your privacy. We will only use the information given at the time of ordering which is collected lawfully and in accordance with the Data Protection Act 1998. Our aim is not to send unwarranted emails to you unless you have consented to being on our mailing list. You may request to be removed from our mailing list by sending an email to info@smirthwaite.co.uk.

For a full and complete copy of our Terms and Conditions, please contact Customer Services on **01626 835552** or email: info@smirthwaite.co.uk.

Caring for your future today

Flexible service plans available on all Smirithwaite Products from 1 - 3 years.

Simple, easy and cost effective just choose what term is best for you.
