Our Approach

GRAVITY DEFYING

FOAM TECHNOLOGY

Compressed by 25% of its original size, **Levitex®** is **soft, comfortable and pressure relieving.**

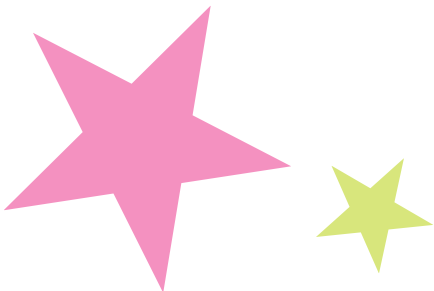

However, at a force of 65% compression, **Levitex®** becomes **firm and resistant.**

Combine these properties and you benefit from the gravity defying foam technology.

Expertise

Congrats @LevitexSleep on the work you're doing for COVID patients and for general ace pillow/mattress action. My husband & son end up fighting for possession of 'the pillow' most nights 🤔🤔🤔

Press & Exposure

SOLD & CARRIED TO
OVER 38 COUNTRIES

We're conscious that we ship big lumps of polyurethane foam around the globe. To combat this, we offset the pillows' full carbon emissions by planting two trees for every pillow sold through the website.

We're also constantly evaluating our packaging to reduce the amount of excess plastic and opt for fully recyclable material.
