

Introducing our **NEW**

# Asiento

An innovative chair for children,  
teenagers & young adults with  
moderate to complex needs

Supporting children &  
their families **for life**

# why Asiento?

Created to achieve improved postural support and symmetry, the Asiento delivers many benefits to the user and those around them, including:

- enhanced eye contact and communication
- improved interaction, breathing and eating
- greater participation in play and activities.

Developed alongside input from clinical professionals, Asiento has been designed to help the user achieve their full potential while increasing their self-esteem and well-being.

With high adjustability, Asiento delivers excellent clinical benefits whilst being functional too.

Do you have any bespoke postural support requirements for children? Our friendly experts are here to help and offer FREE demonstrations.
